TRIMLESS DOOR FRAME

EZYJamb[®]

EZYJamb Classic Adjust - EZC

Trimless doors... Make a statement,
clean lines, flush finish...
Give your project a clean cut edge!

EZYJamb is a unique frameless jamb system that wraps the drywall during framing and when mudded and painted, blends seamlessly with the wall.

CLEAN LINES! ... The Flush Finish Door Jamb System

INSTALLATION

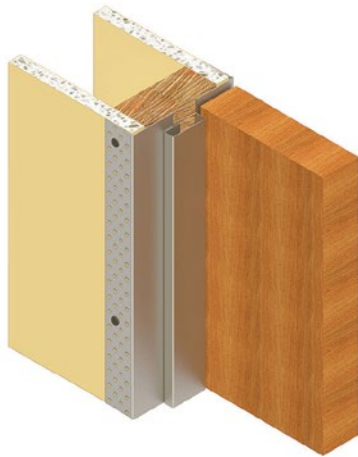

The EZYJamb 20 Gauge Classic Adjust EZC Trimless door frame is simple to install, and it requires no special maintenance. The system is complemented by a range of hardware to suit different applications. The completed jamb is flush finished and can be painted in with the whole wall area to fully conceal any fixing, achieving simple clean lines around the door face. The incorporation of reinforced edges overcomes the continual damage door jambs are subjected to by normal everyday use.

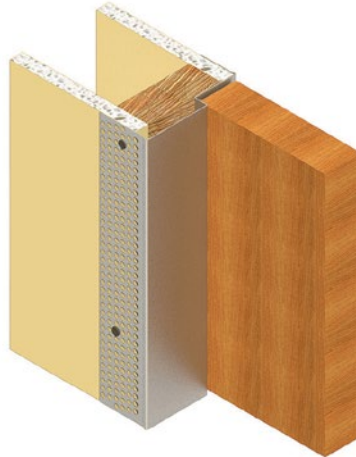

A range of Invisible (concealed) and Standard non-mortised hinges available.
